PROJECT DESCRIPTION:

An outdated bar was closed & within three weeks transformed into a stylish full service Sushi Bar & Lounge.

This transformation was economically achieved through the re-use of the existing lay-out and utilities.

To enhance liquor sales, the back bar became the primary focus. This was accomplished by using color & an intricate serpentine profile for the shelving.

PROJECT INFORMATION:

Square Footage: 1500 sf retrofit
 No. of Seats (Dining): 32
 No. of Seats (Bar): 21
